

## **MISSION:**

**The mission of the Blount County Youth Court is to serve the community by providing a unique, peer-driven restorative justice model as an alternative to the traditional juvenile justice system.**

- Working as an immediate intervention for first time, non-violent juvenile offenders
- Providing youth offenders, the opportunity to accept responsibility for their actions and make amends through the use of restorative interventions.

## **GOALS AND OBJECTIVES:**

**The goal of the Blount County Youth Court is to use positive peer pressure to ensure that young people who have committed minor offenses repair the damage they cause to their victims and to our community and receive the help they need to avoid further confrontation with the justice system.**

## **SERVICES AND PROGRAMS:**

**The Blount County Youth Court is a juvenile delinquency diversion and peer-justice program. It is devoted to restorative justice principles – that is, we work to repair the damaged relationship between youthful offenders, their victims, families, and our community. The Youth Court is dedicated to rehabilitating first-time non-violent offenders, holding young people accountable for their behavior and educating youth about citizenship, the legal system, and constructive conflict resolution.**

**High school students volunteer to participate in Youth Court and hear the cases. They receive training and are held to a strict code of confidentiality. Each year the Blount County Youth Court hears between 50 and 75 cases, and juvenile offenders who participate in this program have a recidivism rate of less than 1% as compared to approximately 35% for juvenile offenders who participate in the traditional juvenile justice system. In other words, Youth Courts work!**

**Each year the Blount County Youth Court awards a \$2,000 scholarship to one youth juror.**
